REMARKS

The Examiner's well taken objections to the error in the specification and requirement for a new Declaration have been addressed by the foregoing amendment to the specification and the substitute declaration attached hereto.

Also The claims have been amended to address, again, the Examiner's well taken objections. If the examiner feels that other corrections are required, he is asked to call the undersigned so that the case may be further corrected.

In response to the Obvious type Double Patenting Rejection, without agreeing that it is correct, attached hereto is a Terminal Disclaimer signed by the undersigned. Thus unless the Examiner has other questions, it is believed that the case is in condition for allowance.

Respectfully submitted:
